## Australian Camp Services

2011

Agility / Exxon – Logistics accommodation village

11 Mile Lae – Papua New Guinea

Contracted by Agility on behalf of Exxon Mobil to supply Service Facilities for their Logistics Hub located in Lae, Papua New Guinea.

This project involved the co-ordination of suppliers and contractors from PNG, the project management of civil and construction works onsite including the management of a Modular Building Installation team from Australia, transport and logistics management and the procurement of supplies from both within PNG and Australia. Our General Manager and Construction Manager visited the site regularly to ensure the smooth operation of this project.
